LBD Requirements

LBD Requirements – Determines eligible contractors, targets for Local Employment and Local Content under the respective LBD Quadrants.

Technology

B\$10m

Total Authorised Contract Value

Note: Bumiputra companies registered or active in other quadrants are excluded from the "Basic" Quadrant.

LBD Features

Determines how each work category falls under the respective quadrants based on the level of technology involved and Total Authorised Contract Value (ACV) for the overall category. Contract period might impact the allocation of categories e.g. from Highly Specialised to Core if it changes duration from short term to long term.

Highly Specialised	Core
 Total ACV < B\$10m Specialised or proprietary work/equipment (OEM) Involves high technology One off or call off basis Limited opportunity for technology transfer 	 Total ACV > B\$10m Complex services or high specs material/equipment requiring local services support Very capital intensive Involved high technology Long term requirement Opportunity for technology transfor
	Opportunity for technology transferOpportunity for training of locals
Basic	Development
• Total ACV < B\$10m	• Total ACV > B\$10m
Small routine services	• Technical expertise and experience required
• Supply of items for general use and readily	 Technical expertise and experience required Complex services and/or resource intensive
	 Technical expertise and experience required Complex services and/or resource intensive Equipment after sales support and
• Supply of items for general use and readily	 Technical expertise and experience required Complex services and/or resource intensive
• Supply of items for general use and readily available in local market	 Technical expertise and experience required Complex services and/or resource intensive Equipment after sales support and maitenance/spares
 Supply of items for general use and readily available in local market Low level of investment/financial risk Low technology involvement Low level of technical/management experience 	 Technical expertise and experience required Complex services and/or resource intensive Equipment after sales support and maitenance/spares Medium level of investment/risk Long term requirement
 Supply of items for general use and readily available in local market Low level of investment/financial risk Low technology involvement 	 Technical expertise and experience required Complex services and/or resource intensive Equipment after sales support and maitenance/spares Medium level of investment/risk Long term requirement
